R.T. Tsai
Vice President & G.M.
Corporate Communications
Delta Electronics, Inc.
146 Rensselaer Road, Nieuw
Taipei 11491
Taiwan, R.O.C.

Dear Mr. Tsai:

Thank you for joining the esteemed Taiwanese delegation at Chungwa Telecom's Bell Ringing ceremony at New York Stock Exchange last Friday. I hope your visit was interesting and informative, and I am sure your participation at the Taiwan Investment Forum 2007 in New York was productive for you and for potential investors in Delta Electronics, Inc.

NYSE has high listing standards. A major result is that we are able to maintain our reputation as the listing venue for global leaders. Chungwa Telecom and Taiwan Semiconductor Manufacturing, both of which accompanied you to the NYSE, exemplify the quality level that is the hallmark of an NYSE-listed company.

NYSE recognizes that Delta Electronics itself is a global leader, and we respectfully invite you to explore opportunities with the NYSE. We offer global visibility, a high-quality market with deep liquidity and low volatility, a dedicated client service team, and unparalleled marketing, visibility and co-branding support. We also offer a full menu of investor relations services to ensure that our companies are understood.

Before I sign off, I wish to congratulate you and Delta Electronics on being selected to Forbes Magazine's 2007 Asian Fab 50 Companies. Please contact me if you have any questions or observations.

Sincerely,

Mark H. Speltz

.....I wish to congratulate you and Delta Electronics on being selected to Forbes Magazine's 2007 Asian Fab 50 Companies...

世界第一份 企業內部用“綠活圖”(Green Map)

“Green Map System is pleased that Delta Electronics has created the first company-wide Green Map® project in the world!”

Green Map System is pleased that Delta Electronics has created the first company-wide Green Map® project in the world!

Working on a global scale, in all their facilities, Delta's Green Maps focus on environmental protection and energy conservation. Thousands of employees have taken part in the first year of mapping workshops in Taiwan and China, with excellent outcomes – several beautifully designed Green Maps, newly designed icons that point out energy saving resources, and empowered individuals who now see themselves as important parts of Delta's corporate social responsibility program. Congratulations to all involved!

We at Green Map's global office in New York look forward to seeing the Green Map movement grow stronger at Delta Electronics, as their new e-learning tool is utilized by staff throughout Taiwan.

Along with leadership at Delta Foundation, we extend congratulations to Society of Wilderness, creators of the first Green Maps in Taiwan and leaders of the Taiwan Green Map Hub, who helped Delta achieve this important contribution to sustainable development.

Think Global - Map Local!
